

## CHECK-UP CAMPUS

## CHOOSE PREVENTION

*The periodical check-up of your health is the best way to look after your physical wellbeing and improve the quality of your life. Campus Bio-Medico University Hospital offers a wide range of check-ups which allow you to control the overall state of your health with separate options for men and women. We can offer specific packages according to your lifestyle, health conditions or even genetic family conditions which evaluate specific body parameters or functions.*

Our Check-Up Centre offers the services of many physicians covering different medical specialities at the Campus Bio-Medico University Hospital. This guarantees the quality of the services, the reliability of treatments and subsequent follow-up in those cases where further analysis are required.

We have chosen to create an exclusive check-up area within the general hospital facilities and this allows us to offer quality care and efficiency combined with ensuring your privacy. On the same day you can undergo all the tests and medical examinations included in your Check-Up program. You will be assigned a coordinating physician and reception personnel will follow you throughout the Check-Up. At the end of the session, you will be given a detailed written medical report.

The Check-Up Centre also offers custom check-up programs as required by the company's specific prevention protocols. Our team can also support companies who would like to offer this benefit to its employees and need medical and scientific advice in order to identify the best check-up program. Each company is provided with a dedicated contact person. This reduces time and increases efficiency in the overall organisation of corporate Check-Ups.

All medical Check-Ups are 19% tax deductible as medical. For companies, the exemption from welfare taxes allows them to extend the full value of the health care package to individual employees and to all their family members, without increasing taxes and contribution payments for the employee or for the company.

 **Quality and safety**

 **Efficiency, a warm welcome and guarantee of privacy**

 **Corporate Check-ups**

 **Tax deductions**
